Recommendations

"Grant's assistance, input and influence in our marquee fund raising event was immeasurable. He integrated flawlessly with our partners and helped us to execute our undertaking with the utmost efficiency. He is a great addition to any team and someone I whole heartily recommend, without reservation." **Bruce Ledoux, Principal Guardian Angel Motorsports**

"We are very pleased to have added Grant to our sponsorship program. In today's world, being a top driver is not enough to be a successful racer. You need business acumen, marketing prowess, and entrepreneurial skills. Grant has the whole package." **Chapman Ducote Chairman and CEO Merchant Services LTD**

"Grant is a world class racer, a top professional, whose approach is thorough and results oriented. His skills are as strong outside the race car as they are in. He is not just a driver but also excels at coaching, management and client / sponsor relations." **Daniel Graeff, Founder / Vice Chairman at Lucini Italia Company**

"Grant is a true professional who has a great understanding of business strategy and operations within the motorsport industry. It was and is a pleasure working with him in developing leading edge business development and sponsorship programs for some key Fortune 500 accounts. Grant brings a sound and unique leadership quality to any team or project." **Matthias Czabok, President, Movement Arts**

"Grant can fill any role, and recognize what is necessary in order to make things happen. He's a great driver, and has been an asset to everyone he's been associated with in the motorsports industry." **Mikel Miller, Owner, M2 Motorsports**

"Grant Maiman is without question an unbelievably talented driver deep in racing experience whom I have been lucky enough to work with. Rather than trying to explain things in a long drawn out way, Grant works directly on items that he observes from what you are actually doing. This makes his teachings directly relevant to what it is exactly you need to work on. Grant taught me several things which were very valuable in my progression as an amateur racer that no one else had even touched on. His positive attitude makes working with him very enjoyable and I hope I can work with him again soon. I would without hesitation recommend Grant as a coach to anyone who is interested in learning car control, race craft or other areas of focus." **Greg Strelzoff, Founder and CEO at ZeroLag Communications**

"Grant was a key to success for my son Justin in 2008 and 2009. He acted as driving coach/confidant for Justin and (gave his time selflessly to other drivers whom asked for his help). His approach is very effective as he was able to understand the mindset and style of Justin and provide input that worked for Justin's driving style and psyche. We WILL hire Grant again in 2010." **Joseph Piscitell, CEO of DAMG Worldwide**

"As we prepared for the 2010 Rolex Daytona 24 our team brought on Grant as a driving coach during our practice sessions and he was our lead spotter for the race. Grants insights on nuances of the track and data analysis was a great help. But I have to admit that while I was behind the wheel his real-time coaching, feedback and calm cool demeanor as spotter were key. I look forward to working with him in the future!" **David Quinlan, Guardian Angel Motorsports**

"Grant is a truly excellent driver coach. He combines the credibility of his success as a racing driver with empathy and polished communications skills." **Bob Ziegel, Skip Barber Racing**

"Grant is very thorough; detail oriented and makes the process of teaching and learning an enjoyable experience. Wouldn't hesitate to work with him again in the future." **Jeff Rodrigues, Skip Barber Racing**
